- Handling various roles, focusing on cash operations during tenure.
- Managed ATMs functionality and maintenance.
- Provide banking services to other branches, govt agencies and partners.
- Custodian duties, facilitates vault activities with the managing officer.

### The Inspection Company

QUALITY AUDITOR | REPORT REVIEWER | 2017 - 2019

- Quality inspection for both products and factories in the Philippines.
- Acts as a liaison between international clients and auditors.
- Analyzes inspection reports for accuracy and compliance.

## PROJECTS

### SHOPPING

[Live](#) | [Frontend Code](#) | [Backend Code](#)

Ecommerce site that lets users setup shop for other users to buy

- Designed with relational database PostgreSQL/AWS S3 for ease of mngrt.
- Saves guest data on local storage then transfers to user upon logging in.
- Creates thumbnail images when uploading to S3 using AWS lambda, fastens browsing loading time by around 300%.
- Enhance browsing with Infinite scrolling, item recommendation etc.

### SPACE TOURISM SITE

[Live](#) | [Code](#)

Interactive landing page with swipe and scroll controls

- Smooth transitions with swipe/scroll controls.
- Tracks images loading states to avoid missing images.
- Loading screen simulates "space traveling" to keep users engaged.

### REST COUNTRIES

[Live](#) | [Code](#)

Ecommerce site that lets users setup shop for other users to buy

- Integrating with the REST Countries API to pull country data.
- Handled dark/light mode with Tailwind CSS.
- Search by country names, language, currency, etc.
